

- Talking about what we did and what we will do till next week.
- Hayden did the backend for the register and login page and leave reviews, and will continue to work on the front end for leave reviews.
- Sashi helped connect and write the backend and integration, and will work on the view reviews function.
- Shon did the front end, the login and register page, and the handlebars, and will work on adding the admin into the website.
- Dylan did some Javascript that was scraped and looked into payment verification.
- Talked about branches and working in separate branches.
- Looked over the main branch and what is on the site right now.
- Talked about what each of us will do next week
